EXPERIENCE

Tech Fleet| Remote   **October 2023- Present**

Product Owner

- Contributed to Agile product development team by attending daily Scrum meetings, conducting weekly Sprints and helping to to identify impediments to the team, progress on artifacts and assisting with planning needs
- Identifying and helping remove or escalate obstacles to product management.
- Continuously refining the team backlog, ensuring work items are prioritized and clearly defined.
- Experience working with personas, user flows, and product/feature roadmaps.
- Coordinate and review product documentation, including user guides, release notes, and technical documentation with the technical writing team.
- Presenting completed user stories during system demos.
- Define the vision and outline milestones for various projects.

Teamwyrk | Remote   **May 2023- Present**

UI/ UX Developer

- Designed and prototyped user interfaces using tools like Sketch, Adobe XD, or Figma, creating wireframes and mockups to visualize user interactions.
- Implemented interactive elements and micro-interactions to enhance user engagement and provide a seamless user experience.
- Demonstrated proficiency in color theory, typography, and layout to create visually appealing and user-friendly interfaces.
- Quickly picked up new design tools and technologies, staying updated with industry trends and best practices.
- Worked closely with cross-functional teams, including developers, product managers, and stakeholders, to align design solutions with project goals.

Software Engineer

- Demonstrated expertise in HTML5 and CSS3 to create visually appealing and responsive web pages, ensuring cross-browser compatibility.
- Developed interactive and dynamic web applications using JavaScript, along with libraries and frameworks such as React.
- Conducted unit tests, performed cross-browser testing, and used debugging tools like Chrome DevTools to ensure code quality and functionality.
- Kept up-to-date with the latest front-end technologies, attending workshops and participating in online courses to enhance skills.
- Contributed to a team project with over 10,000 lines of code, implementing key features and resolving critical bugs.
- Assisted in maintaining a 95% bug fix success rate using JIRA for issue tracking.
- Developed and deployed a feature that improved user engagement, resulting in a 15% increase in monthly active users.

Iris Telehealth | Remote   **May 2022- Present**

Medical Staff Credentialing Coordinator

- Orchestrated the end-to-end credentialing process for medical professionals, ensuring compliance with regulatory standards and organizational policies.
- Conducted thorough verification of licenses, certifications, and credentials, maintaining accurate and up-to-date records for all staff members.
- Ensured adherence to state and federal regulations, as well as accreditation requirements, by regularly auditing credentialing files and processes.
- Managed electronic credentialing databases, utilizing software like MS Excel, CredentialStream, and G-Suite to maintain accurate and accessible records.
- Assisted in preparing materials for Medical Executive Committee and Credentials Committee meetings, providing accurate and comprehensive reports on credentialing status with a 95% accuracy rate.
- Conducted periodic internal audits to verify the accuracy and completeness of credentialing files, resulting in a 98% compliance rate.
- Addressed and resolved credentialing-related disputes or discrepancies, maintaining professionalism and confidentiality throughout the process.

Diversity, Equity and Inclusion Chair

- Led a dynamic team within the Diversity, Equity, and Inclusion resource group, driving initiatives that fostered an inclusive workplace culture.
- Spearheaded the development and implementation of an LGBTQIA+ Employee Resource Group, resulting in a 25% increase in employee engagement and diversity awareness.
- Organized and facilitated workshops on topics such as unconscious bias, cultural competence, and inclusive leadership.
- Compiled and curated a comprehensive resource library containing articles, videos, and training materials related to diversity, equity, and inclusion.
- Orchestrated a yearly average of 8 diversity and inclusion events, including panel discussions, speaker series, and workshops, drawing an average attendance of over 70%.
- Instituted channels for employees to provide anonymous feedback and suggestions related to DEI, resulting in providing additional options for employees that normalize pronouns and creating a safe and inclusive environment.

Software Implementation & Analysis

- Led cross-functional teams in the successful implementation of CredentialStream (HStream/ Verity), ensuring on-time delivery and adherence to project milestones.
- Reviewed and refined existing reports for clarity, relevance, and improved data presentation, resulting in enhanced usability and comprehension.
- Conducted comprehensive training sessions for end-users, resulting in a 40% decrease in post-implementation support requests.
- Implemented change management strategies to ease user transition, resulting in a 30% reduction in resistance and a smoother adoption process.
- Conducted thorough performance analysis, identifying bottlenecks and implementing optimizations that improved system responsiveness by 25%.
- Created detailed implementation documentation, user guides, and training materials, enhancing internal knowledge sharing and onboarding.
- Acted as the primary liaison between internal and external users, ensuring clear communication and alignment with project objectives.
- Implemented automation techniques to streamline report generation, reducing manual effort and increasing efficiency by 35%.
- Collaborated with various departments to understand their reporting needs and customize reports to address specific requirements.

SKILLS

CYBERSECURITY SKILLS

Linux

Python

Intrusion Detection Systems (IDS)

Security Information and Event Management (SIEM) tools

SQL/ NoSQL

Debugging

SWE & UX/UI- DESIGN & DEVELOPMENT

User Experience Testing

C# Scripting for Software & Game Design

AI Prompt Engineering

Software & Game Design

Git / Github

JS (React & Next), HTML, CSS

PRODUCT OWNER/ STRATEGIST

Notion for Project Management

Understanding of Agile/Scrum Methodologies

User Experience (UX) Knowledge

Adaptability & Prioritization

Figma & Invision

CERTIFICATIONS

- Google Cybersecurity Professional Certificate
- Certificate in Web Design, Responsive Web Design, and Front-end Development
- Certificate for Product Design, Prototyping, and Testing
- Certificate for GCCF1x: Google Cloud Computing Foundations: Cloud Computing Fundamentals
- Certificate for AI Prompt Engineering

- Certificate for AI Prompt Engineering
- Certificate for Building 2D & 3D AI games
- Certificate for Prompt Engineering with ChatGPT 4 & Midjourney 2000+ prompts
- Certificate for Coding to Design Game Design and Development

EDUCATION
